Number 1: Introduction ANTCOIN

After several years of development in the crypto world and the world at large, several coins have been developed with lower fees than that of Bitcoin.

This has provided a leverage for those with little capital an avenue to invest into the crypto world.

We and the team prepared something which is a daily payment system in our transactions.

Interestingly ANTCOIN POWER PAYMENT SYSTEM, it has low fees of 5% .

Number 3 : ANTCOIN Is Massive Power Payment System

A Decentralized ANTCOIN that Evolved into a Massive ecosystem, our goal is to push the decentralized banking system and BANK IN YOUR PALM.

The sale on the part of this holders simply gives us more burn rate as 1% on each transaction is auto burn and the team has more room to burn more out of the 0.9% they receive.

Number 4 : ANTCOIN CORE VALUES

There has never been a token with such a high sales fee, despite a massive demand from the crypto community to invest in such a token. We all are tired of the constant pump and dumps and we want to find and grasp those true long-term gems.

We strongly believe that our sales fee combined with the Operation model of this token is what makes us special.

Number 5 : ANTCOIN FUTURE PROJECT

ANTCOIN is a Binance Smart Chain deflationary and stake-able version with Decentralized Smart Contract Ecosystem.

It is powered by automated taxing protocol under Binance Smart Chain. We have

implemented a 3% tax on ever (Buy/Sell/Transfer) transaction.

We are aiming to build two foundations on crypto currency such as Binance (limited supply) + (forking Ethereum Ecosystem)

Number 7 : PROJECT PLAN

ANTCOIN ROAD MAP

Phase AUGUST 2021

- ANTCOIN CREATION & IDEAS
- Public Launch and Marketing, We created the initial round of accounts,Telegram, Twitter, Discord, and More.
- Working On testnet

Phase November 2021

- Presale and Listing ,importantly, we needed the site to communicate the specific tokenomics of ANTCOIN clearly. We decided to custom build the site rather than use a pre-made template so we could control the user experience more closely.
- PARTNERSHIPS,More Marketing ,The audit provided useful suggestions. As a result, we timelocked more functions, set an upper fee limit, and implemented more code changes to comply with security standards. The result is a stronger contract that should protect its investors.

Phase Q1 2022

- Coingecko Listing , Coinmarketcap Listing ,This is a complex task that never ends, but we consider the initial several days of marketing a success. Engagement and token holders have both steadily grown.

Phase Q2 2022

- In the future, we will open up our charitable donations to a community vote, so YOU can determine where Antcoin can do the most good. we should mention that our charitable giving will not distract from our core team's development and marketing responsibilities. This initiative is a bonus for all the investors who have purchased ANTICOIN .
HODL HODL ANTICOIN WILL HIT THE MARS.
